# shaul knaz – layout for a dream

Wednesday, 25 November 2015, 7 pm

Shaul Knaz was born in Kibbutz Gan-Shmuel, Israel in 1939 and lives and works there as an artist and author.

The **galerie gugging** is showing for the first time in Austria the works of the autodidact. Knaz describes his work as being social-critical, rather than a political statement. He observes situations in his country, on the kibbutz, and concerns himself with the desires and the striving of the people for freedom, love, joy and peace.

The **galerie gugging** is showing works that have been created in the past 15 years. Shaul Knaz and his wife Hanna will be present at the opening.

We look forward to your visit!
